

Selected Recent Accomplishments of Computing -Related Faculty and Students

April 2024

Student, Faculty, and Alumni Honors

- x Computer Science PhD student Nataliya Nechyporenko received a prestigious Apple Scholars in AIML Ph.D. fellowship for work on embodied machine learning.
- x Information Science PhD student Tajanae Harris received a prestigious internship at Microsoft Research with MacArthur winner Mary Gray for research on community data infrastructures to fight for environmental justice in a historically marginalized area.
- x Information Science PhD student Shamika Klassen received the Alice Cleora Reeves Dissertation Award from the CU Boulder Center for African and African American Studies.
- x Computer Science PhD student William Xie has been selected to receive a prestigious National Science Foundation Graduate Fellowship.
- x Graduating Computer Science PhD student Christine Chang has been selected as a 2024-25 IEEE Congressional Fellow.
- x Computer Science PhD student Aquib Tabrez won the People's Choice award for the campus graduate school's Three Minute Thesis competition.
- x Computer Science and BioFrontiers professor Aaron Clauset received the engineering
- x Computer Science teaching professor Divya Vernerey is one of the three 2024 recipients of the campus Outstanding Mentor
